

Nabeel's Journey: Discussion Questions

40. Home from the Hospital

- When you hear Nabeel's stories of a stomach or part of a lung growing back, are you inclined to think it is a miracle, answered prayer, natural explanation, or a fabrication?
- Nabeel was encouraged to stay at the hospital during hurricane Harvey. This was a concern due to power needs, limited formula, and access to the hospital. We can all agree that he must have been desperate to get home after five weeks in the hospital, but did his comment about "praying against that" show a lack of clear thinking?
- Nabeel publicly professes that he will believe in God no regardless of healing. Isn't this the truest test of faith?
